

## Silice #02 TU Berlin- 17 JUL 2017

### Day 1 Summary

1. **The University of Edinburgh presentation-** Presenting Social Innovation & Entrepreneurial through education. Linking theory & practice through real experience. will send you a link to the ppt
2. **The History of TU Berlin-** will send you a link to the ppt
3. **Social Innovation & Entrepreneurship Definition-** [Link to the presentation](#)

#### Agreed (operation) definition:

An activity that generates sustainable positive social impact utilizing novel approaches and/or creative thinking.

We were divided to 4 groups, each group discussed a definition and wrote their group remarks- (will be added)

Yellow group remarks

Red group remarks

Blue group remarks

Green group remarks

4. **Indicators for Entrepreneurial Activities-** Social indicators- to measure social impact. We need to define it and to agree what are our project indicators.

**A scale** was presented, running from SA to ST, indicating the activities on the range.

(Social Value, Creativity, Innovation, Risk & Uncertainty, Contribution VS. Investment, Social Impact, Scalability)

Will this be a quality and quantitate tool?

What is the **IMPACT**? Social range- a global indicator- **Social Impact**.

We have to know what we are measuring and how.

- Viability?

#### The agreed measures:

i) Creativity

ii) Innovation

iii) Risk & Uncertainty

iv) Scalability

**v) Viability & Sustainability**

**vi) Engagement**

- For each measure we will have a scale from 1-6 that will grade each parameter.
- What is the weight of each measure? Will it be equal?

On day 2 we will present each a 5 min proposal for measurement

- We will use this matrix/scale tool and map all activities we have inside our campus (comparing to our first mapping).
- We will need a full proposal for this tool to be agreed by the consortium.
- Is Social Entrepreneurship the act and Social Enterprise the outcome?

5. **Tel Hai Proposal for training-** [Link to the presentation](#)

Please find [here the link](#) for the Questionnaire

**Managers-**

Accepted to be the same persons through the whole project

**Teachers-**

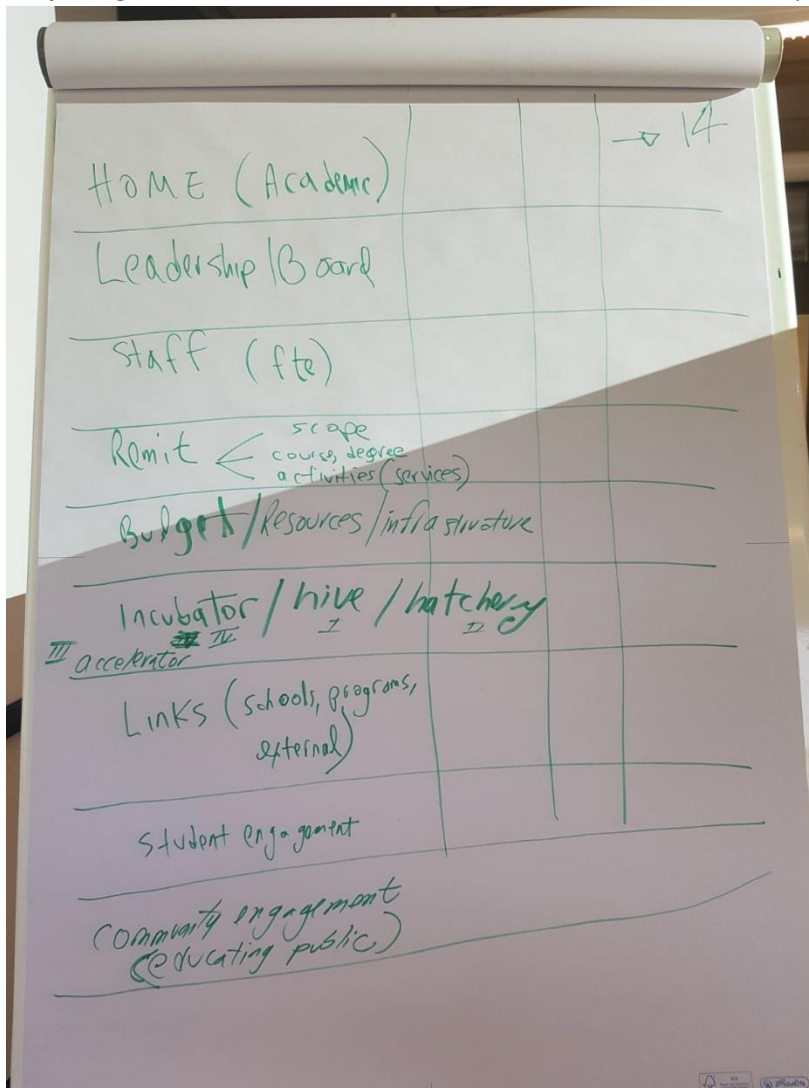

Should be the same participants, Catch ups will not be part of the training

What is the plan of action?

WP1 and WP2 will meet together and agree upon the training modules, and then present it to the consortium. When? Tuesday 18 July, 09:00-10:30

- Need to take in mind the existing budget
- Please address the work plan
- Need to indicate the training that will be given in each meeting
- IL & IN will receive from Vern & IST a profile for manager and for teachers to fill out

6. **Proposing a model for SinnoLab-"Diamond Model"-** a Link to the presentation will added

7. **Silice QA- Oranim** [Link to the presentation](#)

<b>Where do we want to go as a project?</b>	Developing to the future after the end of the project- Impact on the staff & students, a contact between the both		The goal is that all partners institute will be linked and connected so that the students will benefit from this connection of the Silice incubators
<b>Where do we want to go as an institute?</b>		A student's start up idea created	
<b>How do we get there?</b>	Developing a set of indicators to asses in two levels		A staff of mentors available in and between institutes for the students- an online network/ dashboard of Questions & Answers
<b>How will we know that we arrived?</b>			
<b>Who is coming with us?</b>		Institutes, industry partners for developing technology, students	

How do we measure a culture of Innovation?

- i. QAC- Quality Assurance Committee composed by
  - Oranim
  - KIIT
  - IST
- ii. QCP- Quality Control Plan  
(Detailed project description, Page 63, WP 2.3)
  - A plan will be presented and agreed by the consortium  
What are we evaluating?  
We can use the indicators written in the LFM and on page 41, or on page 46-47 for building the QCP.
  - WP leaders will be following the plan's implementation
